PREPARATION SHEET – NOTIFICATION OF BEDBUG SERVICE

Dear Tenant

We have been hired to provide a program for bedbug control in your apartment/condominium building.

To make this program a success, we have several procedures that should be followed. They are listed below:

- All units should be inspected. If you are not going to be home on the day we are scheduled to be in your building, please make arrangements to have a key left with the manager, landlord or a neighbor. This assures you and you neighbor of a thorough and complete inspection/service.
- Please make perimeters of all rooms accessible for inspection.
- Remove all bedding from bed (blankets, sheets, pillow cases, etc.) and place in a large plastic bag. Launder the bedding the same day as the bed bug treatment.
- Remove all curtains from windows. Launder the curtains the same day as the bedbug treatment.
- Bag ALL clothes. Launder the clothes the same day as the bedbug treatment or AFTER, not before. DO NOT put clothes back in drawers until service completed.
- Remove all items under the bed and put into plastic bags or sealed containers.
- Have as much of the floor space accessible as possible
- Empty dresser drawers. Basically remove EVERYTHING from the bedrooms except the furniture.
- Take all personal items off of the dressers, night stands, floors and bag.
- Remove all miscellaneous items from dressers, night stands, chests, etc. and put into plastic bags or sealed containers. None of these items should remain in the bedroom.
- Empty closets and put into plastic bags or sealed containers.
- All large pieces of furniture must be pulled at least 2 feet away from the baseboards in every room of your home.
- Vacuum the floor, bed, bed frame, baseboards, and all the upholstered furniture.
- Everyone including pets MUST vacate the residence during service and 4 hours after service is complete.

Thank you for your help in making this control program successful. We will be in your unit on the following date.

DATE OF SERVICE

APPROXIMATE TIME

PLEASE NOTE: WE ALWAYS BEGIN OUR TREATMENTS ON THE TOP FLOOR. TO HELP KEEP THIS JOB ON SCHEDULE, PLEASE DO NOT ASK TO START ON ANOTHER FLOOR OR TO MOVE FROM FLOOR TO FLOOR.
